## CULTIVATION OF DAHLIAS

Dahlias are easily grown, requiring no special soil or treatment to bring them to perfection. They love an open, sunny situation, but also succeed in partial shade.

Prepare the soil thoroughly by digging 12 to 18 inches deep in the Fall, and then again in the Spring before planting.

If the soil is poor, work in some well-rotted manure in the Fall and apply artificial fertilizer in the Spring—100 pounds to 1000 square feet.

Dig holes 3 or even 4 feet apart and about 6 inches deep; drive a stout stake in each hole and lay the tuber down flat with the crown toward the stake and cover with 2 or 3 inches of soil, leaving the balance of the hole to be filled up later, after the plant comes up.

Plant any time between April 15th and June 15th, the latter date being the best for exhibition flowers.

When the plants have made their third set of leaves, the top should be pinched out, to make them branch. Allow only one plant to each stake.

The most important thing from now on is hoeing and cultivating until the buds appear; this should be done at least every week and after every rain. After the buds appear the ground should be mulched with rotted manure if possible, and a thorough watering should be given whenever the plants require it.

Disbudding the side buds, leaving only the terminal bud to develop, will bring larger blossoms.

After the plants have been blackened with the first frost they should be carefully dug, allowed to dry for a few hours, and stored in a dry cellar or basement and covered with dry sand or soil to keep them from shriveling.

Divide the tubers in the Spring, after the eyes show plainly, being careful that each tuber has a piece of the crown attached with an eye, cover them again and keep dry and cool until planted.

# NEW 1930 INTRODUCTIONS

## GRAF ZEPPELIN

Won First Prize for best six white at Brockton Fair, 1929.

**GRAF ZEPPELIN.** (Dec. White). Originators Description. This Dahlia was originated by J. A. Nolet in 1927. Is a wonderful grower, free from disease. Does not require any pruning. Grows to 8 feet tall with five or six laterals, with 36 in. very stiff stems; flowers 7 to 8 in. without forcing. The best pure white true Dec. Dahlia yet in existence; never shows a center. Won first prize for best seedling in 1929 wherever shown. It is an extraordinary good Dahlia and well deserves its name. Illustrated on front cover. Tubers limited.

Price Tubers, \$10.00 Net. Plants, \$5.00 Net.

**STAR OF BETHLEHEM.** (White Hybrid Cactus). Originators Description. This is really the best type of Hy. Cactus yet offered to the public. It was originated by J. A. Nolet in 1926. It is a very free bloomer, therefore needs disbudding and pruning. Height about 5 feet with large flowers of pure white fine pointed petals, with a large tight center, resembling a real star. Stems from 18 in. to 24 in. Greatly admired at the Boston Dahlia Show. Won first prize for the best basket in the show at New Bedford and also first prize in Providence. It's a Real Star; now on the market for the first time. Tubers Limited. Illustrated on back cover.

Price, Tubers \$10.00 Net. Plants, \$5.00 Net.

**The following are some of the Choicest 1930 Introductions from other growers. The descriptions are the originators'. Any of these new novelties should be an acquisition to any garden, and well worth your trial.**

**AMERICAN TRIUMPH.** (Nuneviller). Winner of the American Home Sweetstakes at New York, 1929, for the most outstanding New Seedling in the entire show. Undoubtedly the finest true Cactus Dahlia to date. Such an unusual coloring, the brightest shade of pure oriental red without a trace of any other color. The large flowers are deep and with good substance and are held erect above a strong, medium, tall bush. It will not only make a most worthy addition to the Cactus class, in which there are so few good exhibition varieties, but an exceptionally good garden and cut flower as there is no better keeping Dahlia in existence. Plants only, \$5.00.

**CARDINALIS.** (Kennedy-Waite) (Dec.) Winner as best undisseminated seedling at Trenton. The flowers are borne on strong, upright stems. Imagine a handsome soldier in red coat on parade and you have a partial visualization of this beautiful dahlia. Tubers, \$10.00. Plants, \$5.00.

**CORA BUTTERWORTH.** (Chapman-Kemp). Winner as best undisseminated Decorative Seedling in New York, 1929. The color is a clear silvery primrose yellow, flowers are very large, and are borne high above the foliage on perfect stems. Plant is a tall grower and a good one the entire season. Plants only, \$5.00 each.

**CREAM OF THE GARDEN.** (Kemp). This is one of the most refined Dahlias I have yet seen. The color is a rich cream with irregular shadings of light lavender, splashed here and there on the petals, yet so perfectly blended that the flower presents a subject so bewilderingly beautiful words fail to accurately describe it. The large blossom is held high above the foliage on long stiff stems, and are produced in the greatest profusion on a six-foot, wide spreading plant of great stamina and vigor.

Plants only, \$3.75.

**DOROTHY STONE.** (F. & M. No. 49). Selected by the popular young actress, Miss Dorothy Stone of "Stepping Stones", at the New York show to bear her name. This magnificent dahlia has been the talk of the show at all the Eastern Exhibitions this year. It is a huge decorative of a true deep pink shade, brighter and richer than "Kathleen Norris" and the substance is heavier. This is a distinct and splendid exhibition companion to Kathleen Norris. Very full center, petals thick and evenly placed, profuse bloomer, deep green leathery foliage, medium to tall habit of growth, stem upright and strong, flowers held well above foliage. In fact, it is everything a good dahlia should be for exhibition.

Plants only, \$5.00.

**DR. MRS. JOHN PETTY.** (Carver). This is one of the outstanding Dahlias of the year. Color is a combination of copper and yellow with a reverse of red. The immense blossoms are held perfectly erect on long stiff stems high above the foliage, and is very free flowering. Grown without disbudding; size average 7 to 10 inches, depth 5 inches. Height 5 feet.

Tubers, \$10.00. Plants, \$5.00.

**ELIZABETH CARTERET.** (Lavinthal-F. & M.). One of the most admired dahlias in the exhibition group at the New York and Trenton Shows. A seedling of Jersey's Beacon, about the same formation, flower larger. Color a bright, rich cerise with a silver reverse. Stems stiff and upright. Flowers held well above foliage which is dark green and leathery. Plants of tall habit of growth, free bloomer. Excellent keeper and fine for exhibition. Name selected to perpetuate the memory of Lady Elizabeth Carteret, wife of a pioneer Governor of New Jersey, and in honor of the Elizabeth Carteret Hotel of Elizabeth, N. J.

Plants only, \$3.75.

**EMANUEL'S BEAUTY.** (Mendonsa). This variety has got all the good features that a good decorative Dahlia should have, fine long stiff stems that hold the flowers perfectly erect, out from a strong, sturdy plant with thick leaf foliage. The flowers will easily grow to 10 inches by ordinary field culture. The color is flame-red with a primrose yellow glow at the base of the petals. This variety I can highly recommend.

Tubers, \$7.50. Plants, \$3.75.

**GROVER WHALEN.** (Klein-F. & M.) Quoting from the 1929 "Roll of Honor" of The American Home: "One of the outstanding dahlias at the New York Show where it won first prize for 'Best basket of 25 blooms, one variety' and got into the movie-tone with the attractive daughter of New York's Police Commissioner doing the talking." It is a fine autumn color of rich orange with tints of bronze, particularly attractive both in the garden where the plants are laden with bloom and under artificial light. Especially fine for cutting on account of its good keep qualities, flowers beginning of season attain exhibition size but this variety, we predict, will become one of the most popular of cut flowers. Foliage dark green and leathery, stems upright and straight.

Plants, \$3.75.

**JEAN TRIMBEE.** (Dec.) (Trimbee Waite) This beautiful dahlia is a native of Canada and exhibited at Toronto for the past two years. The flowers are very large, many over 12 inches, and a beautiful rich petunia violet in color. It has a strong, vigorous habit and the large attractive flowers are produced very freely. One of the outstanding varieties at the recent A. D. S. Show.

Tubers, \$10.00. Plants, \$5.00.

**JERSEY'S TRIUMPH.** (Dec.) (Waite) This is a seedling from the same parents that produced Jersey's Beauty and is identical with Jersey's Beauty in habit and growth that they cannot be distinguished apart before they bloom. The color, however, is entirely different and is a real autumn shade of bright copper, flushed with salmon bronze. Mr. Waite predicts a great future for this variety as a cut flower as there is nothing just like it in the long stemmed class.

Tubers, \$10.00. Plants, \$5.00.

**HELEN IVINS.** (F. & M.) Large exhibition type decorative of a beautiful orchid-lavender, especially attractive under artificial light. We used 35 blooms of this variety together with "The world and Sanhicans Prince" in class calling for "Best Basket of 50 blooms, not more than three varieties" at the New York Show and won first prize. Stems long, slender and upright, flowers large and plant laden with bloom from beginning of season until frost. Color is richer and more lasting than the usual run of lavenders having a more pink tone. Plants tall, sturdy, tough leathery foliage. Our modest price for this variety is due to the fact that it is four years old and plenty of stock. Tubers, \$7.50. Plants, \$3.75.

**MONMOUTH CHAMPION.** (Kemp). (D) Winner of a special award at Elizabeth, N. J., and as best undisseminated seedling at Red Bank, N. J., where it defeated some of the top notchers. This great Dahlia compares favorably with Fort Monmouth, Violet Wonder, Jane Cowl, Kathleen Norris, and other top notchers of recent introduction. It instantly found favor with all who saw it in our gardens, and the show rooms by its great size and brilliant orange flame color that fairly glistens from its own color. It is the only dahlia we know in its color. A very beautiful dahlia in the garden and show room and a free producer of large perfect blooms, on perfect stems throughout the season. Plant is a strong vigorous grower, wide spreading with long slender side shoots, each producing a fine exhibition bloom, from 10 to 12 inches in diameter that can be cut with stems 2 to 3 feet long. Green Plants only, \$5.00.

**ROXY.** (Berwick Dahlia G.) A Hybrid Cactus of exceptional merit, destined to become one of the best cut flowers of the present day. The coloring is apple blossom pink, blending in center to a light canary yellow, making it very attractive. This is not just another dahlia—it is different, and for that reason very desirable. We can offer plants only. \$7.50 net.

**SIR JOHN CARLING.** (Carver). Here is one you have all been waiting for. It has all the good qualities you would expect in a dahlia. Size, stem, color, and insect resisting foliage. Color is a royal purple of an entirely new shade which we have never before seen in a dahlia. Does not burn in the hottest sunshine, and does not ever show an open center. The huge blossoms are held erect on fine stiff stems and the plants are always covered with blossoms. Height of plants 6 to 7 feet.

Tubers, \$10.00. Plants, \$5.00.

**SUPREME GLORY.** (Almy) A seedling of Elite Glory, a beautiful golden yellow with reverse of petals flushed red. The habit of the plant is fine, and it produces flowers abundantly all through the season which hold their size well. The petals are long and wide, and blossom has depth as well as great size, having been grown the past season eleven inches in diameter. The stems which are long and stiff hold the immense blossoms far above the foliage which the insects did not seem to bother. Height of plant 5 feet.

Tubers, \$15.00. Plants, \$7.50.

**THOMAS A. EDISON.** (Dahliadel). This gorgeous new royal purple exhibition decorative, selected and named by permission of the famous electrical wizard. The stag-horn petal formation, the dark green insect-resistant foliage, the cane stiff stems, and its thrifty growing habit, leave nothing to be desired. We can offer plants only.

\$10.00 each net.

## DECORATIVE DAHLIAS

**A. O. KENNY.** (Darling). Decorative. Large flowers of perfect form and great depth, carried on good stems. Color a rich bronze buff shade of one tone, but with the centre tinted with bronze. Never on any dahlia have we seen more gold dust on the petals than on this variety. Plants grow medium height and are very free flowering, in a class by itself. This dahlia was placed on the Honor Roll of The American Home Magazine December, 1928.

Tubers, \$10.00. Plants, \$5.00

**AMARILLO GRANDE.** The color is a light yellow, petals are broad, the blossoms which are enormous in size are always full centered, fine for exhibition.

**AVALON.** (Dec.) (Broomall). Pure clear yellow. The large flowers are very distinct and pleasing in shape. Always full to the center and produced in great abundance on long strong stems. This flower has every good quality, a remarkable good keeper which makes it a fine cut flower as well as for exhibition.

A wonderful keeper with a fine stiff stem holding the large flowers well above the foliage. Tubers, \$5.00. Plants, \$2.50.
- CLARA M. HAAS.** Just another Dahlia that is entirely different from anything in the garden. A plant of this variety is a picture in itself, always covered with blooms of a beautiful pink to cream in centre. The petals are broad and resemble a water lily. Tubers, \$10.00. Plants, \$5.00.

- KATHLEEN NORRIS.** (Klein-F. & M.). (Dec.) This great dahlia was the one outstanding variety at Newark, Trenton, New York and Camden where it was awarded the highest honors the judges could bestow upon it. It was the center of attraction for the thousands of visitors attending these great shows. The bloom is of gigantic proportions, and is without doubt the greatest pink decorative dahlia in commerce. The color is a rose-pink, later deepening to mallow pink, but somewhat paler in the young central petals. Broad overlapping petals with twisted ends, and always full centered. Flowers are held full 14 inches above the top leaves on strong stiff stems, presenting a picture of enchanting beauty for the admiration of all beholders. Foliage, dark green and leathery, defying injury from leaf hoppers. A great bloomer, and excellent keeper both on the plant and when cut. A distinctly beautiful dahlia that stands right up on the stem to be seen and admired. Tubers, \$10.00. Plants, \$5.00.
- KENTUCKY.** (Kemp-Wigginton). (Dec.) Once every so often a truly great dahlia appears on the market, a super dahlia that thrives in any soil or climate. A variety that holds well when cut, a new variety that produces a good crop of tubers that will keep. Jersey's Beauty is such a dahlia. It has held its own with the best introductions from east to west. It does well everywhere. We now have this same Jersey's Beauty, with a new color, in the variety Kentucky. A sport, with all the good qualities of Jersey's Beauty, in a wonderful new shade of color, unlike any other variety we have seen. A brilliant light salmon-orange, shading to orange yellow at base of petals and deepening to grenadine pink on outer petals. This great dahlia has been tested for four years, and its color has never varied a single time. The originator rated the parent of this new dahlia the best in cultivation, but says we have a better one in the variety Kentucky. Tubers, \$10.00. Plants, \$5.00.

Bushes grow very tall and are free producers.

Tubers, \$5.00. Plants, \$2.50.

**MAY TROWER.** (Decorative). A huge, deep, most artistic flower, ranging in color from palest gold to a deep golden apricot. Occasionally the flowers will be regularly tipped white, presenting a very novel appearance. Hardly any two blooms are the same. The stems are long, stiff, and rigid, and hold the blossoms proudly erect in spite of their size. Such an unusual coloring—the softest, richest shade of absolutely pure, glowing old rose imaginable, without a trace of any other color. The flowers are huge, measuring with Siskiyon, and of great depth and substance, and are held proudly erect above a fine strong, tall bush.

Tubers, \$15.00. Plants, \$7.50.

**MISCHIEF.** (Bessie Boston). This dahlia has interested us since we saw its first bloom because it was so strikingly original. It has excited the interest of the public as well, and scarcely a day passed when somebody has not jumped out of a machine and come to ask its name and usually left an order. The three outer rows of petals are scarlet, and the rest of the flower is bi-colored, white heavily flushed red, the tips being pure white. Foliage is ornamental. Bushes grow tall and very luxuriantly. Stem is good. Late in October the bushes bear some red flowers which are often flecked with white. Flowers are very large all season and centres are splendid. **MAIDEN'S BLUSH.** (H.D.) (Broomall). This immense decorative, aside from being one of the largest to commend it, is a model for shape and habit of growth, and, above all its remarkable and distinct color, a very light rose pink or blush. Mr. Broomall refers to it "as one of the most beautiful flowers I ever saw and more like an immense orchid than a dahlia." If this dahlia has any fault it is perhaps a little soft for cutting says the originator but he said the same thing about "Aztec Glory" but it is an ideal cut flower in the east. Height 5 feet. Stock very limited.

Plants only, \$5.00.

**MOTHER MACHREE.** (Dec.) Cream or ivory white with a touch of pink at the center. "Something entirely new," a well-known authority on dahlias said. **PRESIDENT WILSON.** This is one of the most attractive dahlias I have ever raised, being a very bright crimson with each petal distinctly tipped white. On account of very large sales of this most popular dahlia I reserve the right to ship plants in place of tubers when stock is depleted. Tubers, \$3.00. Plants, \$1.50.

It flowers on long strong stems well above the foliage and is a profuse bloomer. Tubers, \$1.00. Plants, \$1.00.

**REGAL.** (Bessie Boston). The biggest Bessie Boston introduction and a prize winner in the Palace Hotel show for two seasons. In 1926, it received the Gold Medal for the best six blooms of a three-year-old seedling, and last fall it was awarded the Western Horticulture's silver cup for the best twenty-five blooms. The crown blossoms will be at least twelve inches and other flowers of this immense size can be obtained by dis-budding generously. Many huge dahlias are rather shy bloomers, but Regal is an exception. The plants grow medium height and are one of the first to bloom. They produce countless high class flowers on long, rigid stems, which grow well out of the foliage. The first bloom, however, if the bush is not pinched back, will have only a twelve-inch stem. Late flowers are very, very big. A delightful and different combination of autumn shades, bronze, heavily suffused with dull old rose, and shading to gold at the base of the petals, giving an effect of burnished copper.

Tubers, \$7.50. Plants, \$3.75.

It might be described best as nearest to a pleasing true American Beauty Rose color. Will not fade or burn in the sun. It was the sensational seedling at the Boston Show where it attracted much attention and received much favorable comment, winning the Achievement Medal awarded by the Garden and Home Builder for the best undisseminated decorative seedling. A superb flower of wonderful beauty. A very free bloomer. The flower has great depth and is carried on a good stem.

Tubers, \$5.00. Plants, \$2.50.

**SEAL'S CALIFORNIAN.** In color this very large decorative dahlia is a bright golden yellow at the center, shading lighter towards the outer petals, the tips of which are suffused—very lightly—with a bronze, rosy pink. Certainly a beautiful blending of color. The stems are absolutely perfect, strong, stiff and cane-like and hold the blooms in a very proud and showy manner. Seal's Californian is very large, bold and immensely attractive—a great acquisition to any garden.

Tubers, \$7.50. Plants, \$3.75.

**SNOW WHITE.** (Bessie Boston). A blossom of absolutely pure white, white as a lily, not the slightest tinting of yellow or pink at any time of the season. Plants grow tall and bushy. Tubers, \$1.50.

**TRENTONIAN.** (F. & M.) A giant decorative of a shade that appeals and captivates at one glance; the color is that of an Indian's skin, a wonderful blending of old gold, amber and coppery bronze. One of the best dahlias in our garden, 1928.

Tubers, \$3.00. Plants, \$1.50.

**VALENTINO.** (One of the most beautiful 1928 novelties of Bessie Boston's.) The name suggests beauty and the flower has great size and attractive formation. This dahlia was very beautiful in our garden and we have heard many fine reports of it throughout the country.

Tubers, \$7.50. Plants, \$3.75.

**WHITE EMPRESS.** (Jost) (Decorative). No doubt the best white (decorative) to date. Very free, on long stiff stems. Winner Darnell Cup at A. D. S. Show at New York for the best keeper. When better known it will be the outstanding white decorative.

Tubers, \$5.00. Plants, \$2.50.

**W. D. CARTWRIGHT.** One of the best dahlias we have ever raised. Color deep orange at center to orange-yellow at tips. Form massive, yet without a suggestion of coarseness, the finished flowers being partially reflexed, yet building up full in the center. Best of stems, early to flower and grand in every way.

Tubers, \$5.00. Plants, \$2.50.

**W. J. ERWIN.** (Decorative). This is the best lavender purple dahlia that we have seen. It is new and should be in every select collection. It has size, the best of stems, and is a free bloomer.

**WALDHEIM SUNSHINE.** (Peacock). This giant yet graceful hybrid decorative dahlia is one of the very best for this season. A true deep yellow that will show up yellow under artificial light. The reflex is darker and there is a rich golden suffusion around the beautiful full high center. The bush growth is ideal, the strong erect stems hold the flowers facing upright. It is a sturdy grower and free bloomer. Tubers, \$5.00. Plants, \$2.50.

**WATCHUNG SUNRISE.** (Smith) (Decorative). This remarkable dahlia for two years in succession created sensational interest at the A. D. S. Show, New York, 1926. It was given a special award of merit, as it was not entered in competition. A huge decorative of golden amber, with reverse of petals showing rose pink. Each petal has a narrow clear margin of rose pink. It is not only one of the unusual dahlias in color, but in form as well. Flower is large and deep, with the back petals curving almost to the stem. Stem strong and sturdy, holding the flowers erect, well above the foliage. One of the outstanding eastern dahlias of great merit. Tubers, \$5.00. Plants, \$2.50.

**WILLIAM H. HOGAN.** (Decorative). Winner first prize New York, 1927. This is one of those dahlias that must be seen to be appreciated. **WATCHUNG WONDER.** (Smith). This spectacular decorative created a sensation at the dahlia show at New York, 1928. The size of bloom is enormous, and also very deep and full to the center. Stems are heavy and stiff. Height 6 feet. Plants, \$7.50.

**YELLOW BEAUTY.** (Wood-Waite). A seedling of Jersey's Beauty, having the same splendid stem, perfect form and habit of growth—the color being a pure empire yellow. Tubers, \$10.00. Plants, \$5.00.

**YELLOW PRINCESS.** (Fraser). A sensation wherever shown. Without doubt the largest and best yellow decorative dahlia. Flowers 10 to 12 inches on stiff stems. Won the American Dahlia Society Gold Medal ribbon, 1927, for the best undiseminated Decorative Seedling that had been certificated at Storrs Trial Gardens. First prize for largest bloom in show at Providence, R. I., 1927. American Dahlia Society Certificate of Merit, 1926. Tubers, \$5.00. Plants, \$2.50.

**YANKEE KING.** (1927 Novelty of Sarah Wakeman Wood's). It is hard to accurately describe the coloring of this dahlia which has won so many prizes at the New York shows, which is a recommendation in itself. It is a bloom of deep autumn tints with some rose on the reverse of the petals, or as one admirer described it, intense flame with rose reverse. The blooms are very large and held erect on a tall vigorous bush extra long fine stems. Yankee King was one of the eleven varieties that scored at Storrs for the A. D. S. Field Day. This was also one of the outstanding dahlias in our garden this past season. Tubers, \$5.00. Plants, \$2.50.

## HYBRID CACTUS

**ALICE WHITTIER.** (Reed). Immense hybrid cactus more like a gigantic true cactus as petals are very long and fold to a point. Blooms up to 10 inches, 6 to 7 inches deep, on cane like stems and can be cut 3 feet or more in length. Wonderful plant and prolific bloomer of exhibition flowers of a clear primrose yellow. Winner of many prizes. Grand keeper and for exhibition. Tubers, each \$2.00. Plants, each \$1.00.

**A. A. STYVERS.** (Bessie Boston). This new dahlia is like Ambassador except the petals are incurved, not straight. Flowers are at all times immense, and carried on fine, strong, long stems. Color is most attractive, amber shaded with salmon rose, with a distinct center of creamy tan. There is no dahlia exactly like it in coloring, and it is a variety which does not change coloring when grown in a different soil and climate. Nine-inch flowers are a daily occurrence, in fact, we have had many flowers eight and nine inches when the terminal buds have not been removed.

Tubers, \$10.00. Plants, \$5.00.

**AMBASSADOR.** One of the most sensational varieties ever originated. Color is soft yellow, with salmon, amber and pink shadings, gradually deepening toward the tips of the petals. Flowers are immense in size and are held erect on extra fine strong stems.

Tubers, \$1.00. Plants, \$1.00.

**ALICE M. LONGFELLOW.** (F. & M.) Hybrid cactus. This dahlia was named in honor of the youngest daughter of our beloved American poet, Henry Wadsworth Longfellow. Color a blending of shrimp pink, shading to pale gold at center of flower, each petal tipped with pale pink, shading to white. Very floriferous, dark green foliage, medium to dwarf growing plants. A dahlia that is chosen by all who love sheer beauty.

Tubers, \$1.50. Plants, \$1.00.

**ADDA PATTERSON.** One of the best white Hybrid Cactus Dahlias to date. The flowers are pure white, and average 8 to 9 inches in diameter. The plant grows tall and the blossoms are held aloft on long stiff stems. Habit of plant is fine and flowers keep good when cut.

Tubers, \$2.00. Plants, \$1.00.

**ANDREAS HOFER.** An imported variety of much merit. This is one of the most beautiful dahlias I have had the pleasure of growing; it has been a prize winner wherever exhibited. It won at the Boston Dahlia Show for best basket, and it had plenty of competition. Color is a glowing light pink, with a salmon-rose suffusion. Cactus in form, the beautiful blossoms are held erect on long, strong, upright stems. This wonderful novelty is recommended for all purposes.

Tubers, \$2.00. Plants, \$1.00.

**CITY OF NEW YORK.** (Harding). Pale golden amber with salmon blushes and tints, beginning about halfway on each petal, and shading to a rich, pure salmon color at the edge of the petals. There is just a touch of salmon on the center petals as they come out. Good stems and excellent keeper. Height 5 feet.

Tubers, \$10.00. Plants, \$5.00.

**CIGARETTE.** This dahlia is best described as creamy white, heavily edged orange, but no two flowers are exactly alike, the petals are long and narrow and inclined to roll; bloom is large and of good substance. Solid color flowers are scarce on bushes of this variety, but when they occur, are of pure orange. Tubers, \$1.50. Plants, \$1.00.

**CONQUISTADOR.** (H.C.) Soft creamy yellow shading to a glowing pink at the base of the petals. The pink coloring is very pronounced and gives to the flower the appearance of being illuminated from within. This is a dahlia built on a massive plan. The plant is extraordinarily tall and the flowers can be cut with 4-foot stems. The bloom is in proportion, being regular.

Tubers, \$7.50. Plants, \$3.75.

**DAPHNE.** (H.C.) Bright true pink, sometimes having a touch of a slightly deeper shade at the center. The enormous shaggy flower is of the true hybrid cactus formation. The many blooms, with tight, perfect centers, are held on stout, straight stems high above the foliage. Its rare coloring and exquisite beauty has immediately made it a favorite.

Tubers, \$7.50. Plants, \$3.50.

**DR. WEBB.** (H.C.) (Clohan). One of the most satisfactory dahlias in every way. No work to take care of it and at the same time plenty of large blooms 8 to 10 inches without forcing on stems stiff and straight and any length desired up to three feet. A seedling of Ambassador with all its good qualities. Petals are long and wider than its parent; a much deeper and richer color, which I would describe as golden amber. The blooms are of fine formation, very deep and has never shown an open center. The plant is a vigorous grower, attaining a height of six feet. Foliage light green, healthy, and has been immune to attacks of leaf hoppers.

Tubers, \$7.50. Plants, \$3.75.

**DOROTHY DIX.** (Bessie Boston). An immense blossom of silvery pink of distinct incurved formation. Petals roll very evenly. Stem is perfect, long and stiff. Plants grow tall and sturdily and produce big flowers early and late. Centre is always closed. A big bunch of Dorothy Dix picked the middle of November, had excellent stems, closed centers, beautiful color and large size, and yet the bushes were among the first to blossom. This is one of the largest hybrid cactus we have ever grown and will be found splendid for exhibition and delightful for cutting. We cheerfully recommend it, for despite its enormous size, it has every good quality.

Tubers, \$5.00. Plants, \$2.50

**ANDREAS HOFER**

(See description on page 8)

**ELSIE DANIELS.** Color of this wonderful dahlia is a pale violet orchid shade on the outer petals, center white, making a magnificent combination of colors. Stems are long and stiff and hold the very large flowers above the foliage; one of the finest novelties. Tubers, \$1.00. Plants, \$1.00.

**"EDNA FERBER".** An Exhibition Hybrid Cactus with an extremely fine stiff stem. Color a glistening coral shading to old gold at the base of petals. One of the first flowers to attract attention both in the field and on the exhibition table. Petals curled and twisted, making a very full flower. Medium to tall habit of growth, foliage dark green and thick. Tubers, \$3.00. Plants, \$1.50.

**EAGLE ROCK JEWEL.** (Broomall). This was considered the outstanding new dahlia of California origin. The color is cream overlaid cameo pink and the large flowers are borne on strong stiff stems. Will be in great demand. Tubers, \$5.00. Plants, \$2.50.

**FORDHOOK TREASURE.** (H. C.) Deep rosolane-pink, suffused silver pink, lighter at tips. Awarded certificate, New Jersey Dahlia Society. Tubers, \$3.50. Plants, \$1.75.

**FAIR ELAINE.** (H. C.) Delicate old rose. An extra good variety that closely resembles the American cactus type in formation. The "pink Ambassador" we called it before it was named, although the petals are considerably more incurved than those of the older variety. For true beauty it is hard to surpass. Tubers, \$7.50. Plants, \$3.50.

**FRED W. PATTERSON.** (H. C.) A seedling from the beautiful Adda Patterson, but a stronger, heavier flower. The color is difficult to accurately describe, and as near as we have been able to work it out, with the aid of Ridgeway's Color Chart, the color is lavender pink, with deep amaranth pink reverse. A beautiful color combination that instantly attracts and holds the attention. With us the flower averages 10 inches and over in diameter, but in a letter received from a grower who had it on trial the past season, he says the flower was as large as Fort Monmouth with him, and that it was about the best dahlia in his collection. The long stiff stem holds the flower high above the foliage. Plant is vigorous, with habit and foliage identical with Adda Patterson. A most excellent garden and exhibition variety. Height 7 feet. Tubers, each \$7.50. Plants, \$3.50.

**FAIRHAVEN GOLD.** This dahlia has great depth, as well as large size, and is produced freely on long, stiff stems. A medium, low grower. Color a pure glistening gold, beautiful formation, mentioned in the Garden and Home Builder Dahlia "Roll of Honor", 1927. Stock limited. Tubers, \$7.50. Plants, \$3.50.

**FORT MONMOUTH.** (Kemp). One of the giants of the dahlia world. The predominating color is a rich crimson maroon, with shading of blueish violet at tips of petals. The flowers are well formed of true H. C. type, of immense size, frequently attaining to full 13 inches in diameter, and are borne on long stiff stems high above the foliage, and look you right in the face. Does not burn, and is a splendid keeper, both on the plant and when cut. Very prolific bloomer, from early to late, and is no uncommon thing to see as many as five and six immense blooms on a plant at a time. Plants are a strong, vigorous grower, attaining to a height of 7 to 8 feet. Foliage dark green, healthy, and has been immune to attacks of leaf hoppers. Winner in the class for the largest dahlia in diameter at the 1927 Trenton, N. J., Show. Tubers, \$7.50. Plants, \$3.50.

**GOLDEN SONNE.** An imported variety of great merit, greatly admired at the dahlia shows the past season; a counterpart of Andrees Hofer, except in color which is canary yellow blending to a light sienna at ends of petals, destined to become popular. Height about 4 feet. Tubers, \$3.50. Plants, \$1.75.

**HELEN LINSLEY.** This is a beautiful color of pure unshaded gold which does not vary all the season. It has long stout stems that grow straight from the leaves which hold the large blossoms erect. Very free bloomer. Tubers, \$2.00. Plants, \$1.00.

**ISLAM PATROL.** Dark velvety scarlet, tipped and flushed with gold, a gorgeous variety; this will be among the prize winners. Tubers, \$1.50. Plants, \$1.00.

**JACK CURTIS.** A huge, perfectly formed and very popular dark maroon and garnet hybrid cactus dahlia. This magnificent Eastern dahlia has won much attention in our garden as it has every good point to recommend it—fine stems, great size and depth and a magnificent dark color combination. Tubers, \$3.50. Plants, \$1.75.

**LA MEXICANA.** (Hybrid Cactus). A difficult color to describe. Ridgeway's chart names it Grenadine Orange, perhaps Burnt Orange toning to copper would better describe it. Center of flower lighter in shade and tips of petals slightly tinged with gold. An extremely early and free bloomer, yet easily attaining exhibition size. Flowers borne on slender, stiff, black stems, medium to tall habit of growth, dark green foliage. Tubers, \$3.00. Plants, \$1.50.

**"JEAN HARE."** (F. & M.) A distinctive Exhibition Hybrid Cactus unusually odd in its formation and possessing distinctive charm. In the earlier stages of bloom the color is a beautiful golden yellow; as the flower matures this color is superseded by a gorgeous apricot buff, while the outer row of petals show a golden bronze coloring. This flower attracted an unusual amount of attention both in the field and on the show table. A splendid autumn-colored dahlia that has won its mead of praise both for size and beauty. A free bloomer, medium to tall habit of growth, perfectly rigid, upright stems and fine dark green foliage. Tubers, \$4.00. Plants, \$2.00

**LENORE WOOLAMS.** A giant Hybrid Cactus of unusual formation. Color is a pure Tyrian-rose. The petals are long and wavy, making a very beautiful blossom. The stems are long and rigid, plants are medium height, and bloom freely.

Tubers, \$3.00. Plants, \$1.50.

**META SCAMMEL.** A huge exhibition hybrid cactus, center of flower pale amaranth pink, shading to deep amaranth pink, a most artistic flower on account of petals being irregularly placed and terminating in sharp points, which curl and twist and give a great depth to the flower as a whole, an unusually beautiful flower that can be grown 5 inches or more without forcing, flowers carried high above foliage on long, straight, slender stems, plant has a clean habit of growth, and foliage is dark green. Height about 5 feet.

Tubers, \$5.00. Plants, \$2.50.

**MINNIE EASTMAN.** (Eastman), c g e, Bloom 8x4, Bush 6 ft. This fine introduction has been a popular winner at both the Baltimore and Maryland Dahlia Shows for the past three years. Tubers, \$7.50. Plants, \$3.75

**MRS. JOHN GARDNER.** A large bi-color Hybrid Cactus of dazzling brilliancy, blood red petals tipped white, full to the center and borne on long stiff stems well above the foliage, has never produced any solid color blossoms for me, and is a very free bloomer. A grand flower.

Tubers, \$2.00. Plants, \$1.00.

**MARION BROOMALL.** Pink and white seedling from Gladys Sherwood, it is more cactus in shape than its parent, with better stems and habit, and a very free bloomer. A grand flower.

Tubers, \$2.00. Plants, \$1.00.

**MIRAFLORES.** White, tinted violet-pink. The petals are long straight and rather narrow. The flowers are 8 inches in diameter without disbudding and are borne profusely on fine stems, this variety is distinct. There is nothing like it.

Tubers, \$2.00. Plants, \$1.00.

**MY MARYLAND.** (Downs). This exhibition Hybrid Cactus is of a decidedly unique coloring, a blending of unusually delicate pink with the faintest suggestion of lavender, the pointed petals whorl and twist in such a manner as to blend the two colors. There are pinks and there are lavenders, but this flower is in a color class of its own. Excellent stems and leathery foliage. Awarded the Maryland Dahlia Society Gold Medal in Atlantic City, hence its name. Also awarded the Garden & Home Builder's Achievement Medal. First prize at A. D. S. Show in New York for best undisseminated Hybrid Cactus. Certificate of Merit, A. D. S. at Storrs.

Tubers, \$7.50. Plants, \$3.50.

Tubers, \$2.00.

**NAGELS ROEM.** (Belgian Hybrid Cactus). Immense flowers borne aloft on very rigid stems. Coloring Naples yellow tinted with salmon and chamois of the most delicate shadings. This is without doubt the finest European importation of recent years. It has received three first class certificates.

Tubers, \$1.50. Plants, \$1.00.

**PINK FAVORITE.** A Holland importation. Hybrid Cactus of exquisite form and beautiful color; a light pink shading, darker toward the center. Size medium, with very long stiff, upright stems, which make it a fine flower.

Tubers, \$2.00. Plants, \$1.00.

**ROYCROFT.** (Cactus). One of the spiky dahlias, almost star shaped, and of an extremely odd and striking color, best described as cinnamon buff, deepening to tawny russet in the center. Of large size, excellent form, petals rolled to tips and never showing an open center to the end of the season. One of the first to bloom and the low-growing bushes always show a mass of perfect flowers until frost. Foliage is unique, inasmuch as it seems to be absolutely insect proof. A distinctly different variety both in shape and coloring.

Tubers, \$1.50. Plants, \$1.00.

**RISING MARS.** (Simmons). A hybrid cactus that for five years has been winning awards at the New England Dahlia Society shows. It has won seven first prizes, two silver medals, and the Darling Cup. In December, 1928, it was placed on the honor roll of The American Home Magazine. An abundant bloomer, early and late. Natural flowers with a uniform size of nine inches. Its color given by Ridgeway's chart as Pomegranate Purple. In the sunlight the blooms have a three tone effect. Never burns in the sun or sheds its petals. Can always be depended upon for blooms and a tight center. The plant stands five feet with dark green leaves and needs no pruning. The strong stems are long and slender. For the first time this five year old seedling is offered for sale. The tubers offered are all field grown from tubers.

Tubers, \$5.00. Plants, \$2.50.

**STARLIGHT.** (Bessie Boston). This Hybrid Cactus has won many prizes. Color is pure gold, stems are long and stiff and hold the immense blossoms rigid, well above the foliage. Bushes grow tall and branching.

Tubers, \$10.00. Plants, \$5.00.

**SANTA ANNA.** One of the largest and best hybrid cactus of this shade. A beautiful salmon rose suffused with gold. The plant is of medium height and a free bloomer. Tubers, \$2.50. Plants, \$1.25.

**SILVERADO.** (Seal). This is a beautiful hybrid cactus. The immense blooms are of white, gradually shading toward the center to a delicate silvery lavender. The stems are extra long and strong, and the tall, well branched bushes are always covered with huge, feathery blooms.

**SISKIYOU.** (Broomall). In this we have one of the largest dahlias to date; has won that prize at nearly all shows the past season. Color pink-tinged mauve; plants are sturdy and vigorous, and the flowers are held erect on strong stems.

Tubers, \$1.50. Plants, \$1.00.

**TALISMAN.** (B.B.) If you are looking for a new combination in autumn tints here it is. This big full hybrid cactus has a brownish red color, with a reverse of tan, the petals are long and many incurve slightly and open at the tips showing plainly the tan at the back. The center is also tan. Excellent stems.

Tubers, \$2.00. Plants, \$1.00.

**UNUSUAL.** (Bessie Boston). The base coloring is cream, heavily suffused with the deepest shade of cerise pink. Every petal is heavily tipped with this odd coloring, and there is a glint of gold showing in the inner petals. Don't you think the name suits the flower? The large blossom is incurved with closely rolled petals. Stem is stiff and strong and carries the flower well above the leaves. The tall plants produce freely all season. Flowers of this variety will be found splendid for exhibiting and admirable for bouquets. Unusual created a sensation last year in a far-away London garden.

Tubers, \$3.00. Plants, \$1.50.

# Choice Named Varieties of GLADIOLI

Our customers will note in this issue many new varieties that we have tried out in our gardens and found to be worthy acquisitions. It is our practice each year to obtain plantings of the newer creations in order that our many visitors may have the opportunity to view them while growing in our fields.

## CARE AND CULTURE OF GLADIOLI

Do not plant too early, as nothing is gained by planting before the ground is warm. If your soil is heavy plant four inches deep, if light and sandy, six inches is better. Place the bulbs four to six inches apart. Place the bulbs in a well worked trench in zigzag rows, and cover at first about three inches, when shoots begin to appear, work balance of dirt into the trench. At all times keep the soil loose. If exhibition blooms are wanted Sheep Manure or Fertilizer should be worked in around the plants when hoeing.

In the Fall dig the bulbs as soon as the leaves turn yellow. Cut stem off half an inch above bulb. Spread bulbs out in the sun and dry thoroughly before storing. Store in a cool, dry cellar.
